

	4 Points	3 Points	2 Points	1 Point	0 Points	Comments	Total:
Spreadsheet	Spreadsheet is clear as a stand-alone document; analysis clear, detailed and appropriate	Spreadsheet is appropriately used, but disorganized; analysis present and clear	Did not show a clear understanding of spreadsheets; analysis present but not clear	Little analysis was performed	No analysis was performed		
Raw Data Collection	Raw data was included; data source was explained; sampling method used was explained, along with possible sampling errors.	Explanation of data source and method of sampling used was lacking clarity	Raw data was included but not explained	Included little raw data, with no reference to where or how it was obtained	No raw data was included.		
Performs proper regression or inference	Included all necessary components for the type of study/data	Had mostly correct processes	Did not show a clear understanding to apply the correct procedures	Limited evidence that inferences were performed correctly	No regression or inferences made		
Spreadsheet calculations (Excel)	Formulas are used correctly and appropriately	There were some issues with use of formulas/calculations	Some calculations were evident, but not correct	Little calculation was applied or done correctly	No calculation was done		
Interpretation/ Conclusion	A clear understanding and explanation of the results of the study were shared	Conclusions was generally correct, but not clearly explained	Conclusion was reached, but not accurate	Much confusion in interpreting the results, and no meaningful conclusion	No data interpretation or conclusion
